SVENSTOL S6

Swedish designed, the Svenstol S6 is a sleek but ergonomic 24-hour control room chair built for comfort and durability.

Ergonomics is a big factor in the design of this chair, Svenstol's 'activePlus' mechanism ensures movement whilst sitting. It activates the muscles, improves circulation and ensures that the user regularly makes that important switch between active and passive postures.

Includes a huge recline of 44 degrees.

Complies to BS5459 standard

Includes 5-year warranty

Features:

- Suitable for 24 Hour use
