

Knürr Ergocontrol

Intelligent control for workstations in control rooms!

Advantages

Ergonomics as a factor in productivity and wellbeing – easy to handle and comfortable to use.

Up to 1,000 different users can log in to the console via RFID and store their own personal settings for seated position, standing position, and monitor distance using the Knürr Ergocontrol system. Stored settings can be called up at any console networked to a user group, which means up to 48 different consoles are ready to be automatically adjusted to any user in that group.

- Smart **multi-user** control
- Improves the actual use of the setting options
- **Free choice of seats** in large control rooms
- **User-specific storage of settings**
- Future-proof **using open interfaces**

Main features

Up to three presets

Omicard Reader

Up to 48 consoles per group

Open interfaces for building technology

Upgradable

Single workstation or network

Parallel tried-and-tested standard controller
